About us

For over 25 years, McWong International, Inc. has been bridging the best of East and West in order to achieve for our valued customers an unparalleled mix of innovation, quality, and service. A California corporation, McWong has grown to become a leader in the design and manufacture of high quality lighting control equipment and related electrical components. Our teams on both sides of the Pacific take great pride in the fact that the majority of our growth comes from organic nurturing of business with long-term, world-class customers. Reliable, competitive products paired with committed customer service year in and year out have enabled sustained growth over more than two decades.

Today, the pace of technological change has quickened and competition continues to intensify. We are meeting these challenges through heightened investment in capable individuals, promising technologies and advanced manufacturing facilities. McWong's disciplined approach to quality management, customer service, and cost control ensures that we are well-poised to accelerate our pace of growth as we partner with our stakeholders to achieve a brighter, more sustainable, more successful future.
